## Task Bounty Programme

---

The AMFEIX Task Bounty Programme is our way of tapping into the pools of bright, talented people we know our users have among their networks. We want to hire skilled specialists who will contribute to driving AMFEIX toward its goals, ultimately helping us to achieve our vision to the masses.

At AMFEIX, we know that all good relationships are built on trust, and that referrals from users who know and trust what we do is a firm foundation on which to build a healthy and robust working relationship. As a blockchain pioneer, trust is also particularly important to our organisation's success. Having a highly skilled workforce that we can depend on is essential to ensuring that AMFEIX operates efficiently and effectively.

The AMFEIX Task Bounty Programme allows you, the AMFEIX user, to refer specialists from your network for one of our open job roles. If the person you refer is successful, not only will you enjoy the warm feeling that comes with a good deed well done, but we'll also make sure you get a Bounty for helping us find the stellar staff we need.

So, if you have a specialist in your network that you think might be suitable for one of our open job roles, follow the steps below:

1. Take a look at the AMFEIX Task Bounty Programme List to view our current vacancies
2. If you have a specialist in your network that you think might suit one of our roles, go to **[www.AMFEIX.com/contact](http://www.AMFEIX.com/contact)**
3. When filling out the contact form, highlight the job you are referring the person for and – with their permission – pass on their contact details.
4. If your contact applies for the role and is successful, you'll receive your Bounty reward after they have completed a one-month probation period

Our current vacancies list is updated every month, so keep an eye out for updates as they could apply to you and your network!

### Open Job Roles
